October 11th, 1920.

Pneuvac Company,
Boston, Mass.

Dear Sirs:-

Some four years ago we bought a Sweepvac from you, and the metal adjustment on the handle that screws both into the pneumatic part as well as into the sweeper has worn out so that the threads do not hold. Could you send me, with a bill, one of these metal things, and I can attach it to the handle.

I remain,

Yours very truly,

Curator.
